

Experience the Seasons

Cold Spring Inn, located on eighty acres in the Kettle Moraine, prides itself on protecting and conserving native prairie, woodland and the beauty of the natural environment. On arrival guests follow a winding drive canopied by magnificent Norway Spruce. On the right, the vineyard spreads down to a half acre organic vegetable garden. On the left the outdoor Wildflower Nursery hardens delicate planting of native Wisconsin wildflowers.

Beautiful ponds & streams add a note of elegance upon arrival

Picture Perfect...

On chilly fall and cold winter days, a huge fireplace and hearth is the focal point of the combined living-dining room.

Relaxation and Privacy

EVERYTHING THE "GREAT NORTHWOODS" HAS TO OFFER ONLY 30 MINUTES FROM MILWAUKEE.

Originally built as a private lodge, the sprawling lannon stone wings of the building, enhanced by the attached greenhouse, reflect the natural environment in an elegant living space that everyone visiting can enjoy. Two master suites located in the north wing are beautifully appointed with private fireplace and whirlpool bath. A common living area on the first floor of this wing provides a kitchenette and private exit that leads out to paved walkways and patios featuring a water garden stocked with Koi fish and water plants.

The decor speaks of artistic tastes and quality, from the hand-textured walls to the double-sized hottubs

Rustically elegant touches with up-to-date amenities. Tempt even the most active guest to turn in early

This beautiful site includes two walking bridges over the Oconomowoc River, a fishing pond with pier for rowing in the summer and skating in the winter .
